

VANDALISM

The Board views vandalism against school property by students as reprehensible.

The causes of such misbehavior often are complex, calling for careful study by parents, school staff and appropriate community officials to determine the causes.

Accordingly, the Superintendent is directed to take such steps as are necessary.

1. To identify the student(s) involved.
2. To decide upon disciplinary action and to assess costs against the students and/or their parents.
3. To take any constructive actions needed to guard against the future student misbehavior.
